Statement of intent

Poppy Hill Trust is committed to providing emergency first aid provision in order to deal with accidents and incidents affecting employees, children and visitors. The arrangements within this policy are based on the results of a suitable and sufficient risk assessment carried out by the school in regards to all staff, pupils and visitors.

Poppy Hill Trust will take every reasonable precaution to ensure the safety and wellbeing of all staff and pupils. Details of such precautions are noted in the following policies:

- Health and Safety Policy
- Behaviour Policy
- Safeguarding Policy
- Medical Policy
- Food Hygiene Policy and Procedures
- Educational Visits and School Trips Policy

The admin team and first aiders have overall responsibility for ensuring that the school has adequate and appropriate first aid equipment, facilities and personnel, and for ensuring that the correct first aid procedures are followed.

1. Legal framework

This policy has due regard to statutory legislation, including, but not limited to the following:

The Health and Safety (First Aid) Regulations 1981 and approved code of practice and guidance
Health and Safety at Work etc. Act 1974 and subsequent regulations and guidance

2. Aims

All staff should read and be aware of this policy, know who to contact in the event of any illness, accident or injury, and ensure this policy is followed in relation to the administration of first aid.

All staff will use their best endeavours, at all times, to secure the welfare of the pupils.

Anyone on the school premises is expected to take reasonable care for their own and others' safety.

The aim of this policy is to:

- Ensure that the school has adequate, safe and effective first aid provision in order for every pupil, member of staff and visitor to be well looked after in the event of any illness, accident or injury; no matter how major or minor.

- Ensure that all staff and pupils are aware of the procedures in the event of any illness, accident or injury.
- Ensure that medicines are only administered at the school when express permission has been granted for this.
- Ensure that all medicines are appropriately stored.
- Promote effective infection control.

Nothing in this policy should affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 for the emergency services in the event of a medical emergency before implementing the terms of this policy, and make clear arrangements for liaison with ambulance services on the school site.

To achieve the aims of this policy, the school will have suitably stocked first aid boxes. Where there is no special risk identified, a minimum provision of first aid items would be:

- A leaflet giving general advice on first aid;
- Individually wrapped sterile adhesive dressings (assorted sizes);
- Two sterile eye pads;
- Four individually wrapped triangular bandages (preferably sterile)
- Six safety pins;
- Six medium sized (approximately 12cm x 12cm) individually wrapped sterile
- Unmedicated wound dressings;
- Two large (approximately 18cm x 18cm) sterile individually wrapped unmedicated wound dressings;
- One pair of disposable gloves.

Equivalent or additional items are acceptable.

The lead first aider is responsible for examining the contents of first aid boxes. These should be checked frequently and restocked as soon as possible after use. Items should be discarded safely.

Roles and responsibilities

In schools with Early Years Foundation Stage provision, at least 1 person who has a current paediatric first aid (PFA) certificate must be on the premises at all times.

Beyond this, in all settings – and dependent upon an assessment of first aid needs – employers must usually have a sufficient number of suitably trained first aiders to care for employees in case they are injured at work. However, the minimum legal requirement is to have an ‘appointed person’ to take

charge of first aid arrangements, provided your assessment of need has taken into account the nature of employees' work, the number of staff, and the layout and location of the school. The appointed person does not need to be a trained first aider.

Appointed person(s) and first aiders

All Trust school's have an appointed person. They are responsible for:

- Taking charge when someone is injured or becomes ill
- Ensuring there is an adequate supply of medical materials in first aid kits, and replenishing the contents of these kits
- Ensuring that an ambulance or other professional medical help is summoned when appropriate

First aiders are trained and qualified to carry out the role and are responsible for:

- Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment
- Sending pupils home to recover, where necessary
- Filling in an accident report on the same day as, or as soon as is reasonably practicable after, an incident
- Keeping their contact details up to date

Our appointed person(s) and first aiders are displayed prominently around the school sites.

The Governing Board

The governing board has ultimate responsibility for health and safety matters in the school, but delegates operational matters and day-to-day tasks to the headteacher and staff members.

The Headteacher

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that an appropriate number of appointed persons and/or trained first aid personnel are present in the school at all times
- Ensuring that first aiders have an appropriate qualification, keep training up to date and remain competent to perform their role
- Ensuring all staff are aware of first aid procedures
- Ensuring appropriate risk assessments are completed and appropriate measures are put in place

- Undertaking, or ensuring that managers undertake, risk assessments, as appropriate, and that
- appropriate measures are put in place
- Ensuring that adequate space is available for catering to the medical needs of pupils
- Reporting specified incidents to the HSE when necessary (see section 6)

Staff

School staff are responsible for:

- Ensuring they follow first aid procedures
- Ensuring they know who the first aiders and/or appointed person(s) in school are
- Completing accident reports for all incidents they attend to where a first aider/appointed person is not called
- Informing the headteacher or their manager of any specific health conditions or first aid needs

First aid procedures

In-school procedures

In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment
- The first aider, if called, will assess the injury and decide if further assistance is needed from a colleague or the emergency services. They will remain on the scene until help arrives
- The first aider will also decide whether the injured person should be moved or placed in a recovery position
- If the first aider judges that a pupil is too unwell to remain in school, parents will be contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps to the parents
- If emergency services are called, the Operations Manager will contact parents immediately
- The first aider will complete an accident report form on the same day or as soon as is reasonably practical after an incident resulting in an injury

Schools with Early Years Foundation Stage provision

There will be at least 1 person who has a current paediatric first aid (PFA) certificate on the premises at all times.

3. Reporting to Parents

In the event of incident or injury to a pupil, at least one of the pupil's parents must be informed as soon as practicable.

Parents must be informed in writing of any injury to the head, minor or major, and be given guidance on action to take if symptoms develop.

In the event of serious injury or an incident requiring emergency medical treatment, the pupil's class teacher will telephone the pupil's parents as soon as possible.

A list of emergency contact details is kept at reception/admin office.

4. Visits and Events Off-site

Before undertaking any off-site events, the teacher organising the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the event and persons involved. This will be reviewed by the School Business Manager before the event is organised.

Please see the separate Educational Visits and School Trips Policy for more information about the school's educational visit requirements.

5. Storage of Medication

Medicines are always securely stored in accordance with individual product instructions, save where individual pupils have been given responsibility for keeping such equipment with them.

All medicines shall be stored in the original container in which they were dispensed, together with the prescriber's instructions for administration, and properly labelled, showing the name of the patient, the date of prescription and the date of expiry of the medicine.

All medicines will be returned to the parent to arrange for safe disposal when they are no longer required.

An emergency supply of medication should be available for pupils with medical conditions that require regular medication.

Parents should advise the school when a child has a chronic medical condition so that staff can be trained to deal with any emergency in an appropriate way. Examples of this include epilepsy and diabetes. A disclaimer will be signed by the parents in this regard.

6. Illness

When a child becomes ill during the day, the parents/carers will be contacted and asked to pick their child up from school as soon as possible.

A quiet area will be set aside for withdrawal and for pupils to rest while they wait for their parents/carers to arrive to pick them up. Pupils will be monitored during this time.

7. Consent

Parents will be asked to complete and sign a medical consent form when their child is admitted to the school, which includes emergency numbers, details of allergies and chronic conditions, and consent for the administration of emergency first aid – these forms will be updated periodically.

Staff do not act ‘in loco parentis’ in making medical decisions as this has no basis in law – staff always aim to act and respond to accidents and illness based on what is reasonable under the circumstances and will always act in good faith while having the best interests of the child in mind – guidelines are issued to staff in this regard.

8. Monitoring and review

This policy is reviewed annually by the Operations Manager in conjunction with the governing body; any changes made to this policy will be communicated to all members of staff.

All members of staff are required to familiarise themselves with this policy as part of their induction programme.
